REPORT
of theFEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

To: SAC, Las Vegas (164-60)

Date: December 7, 1971

Re: UNSUB;
NORTHWEST AIRLINES FLIGHT 305,
PORTLAND TO SEATTLE,
11/24/71
CAA - HIJACKING; EXTORTIONFBI File No. 164-2111
Lab. No. D-711206032 LL
D-711206033 LL
D-711203049 LL

Specimens received 12/4/71 from Las Vegas

- Q1 Envelope postmarked "OAKDALE, CA NOV 27 PM 1971 95361," addressed "RENO NEWSPAPER RENO NEV."
- Q2 Accompanying piece of paper with cutout words forming the message "ATTENTION Thanks for Hospitality was IN A RUT D. B. Cooper,"

Specimens received 12/4/71 from Philadelphia

- Q3 Envelope postmarked "U. S. POSTAL SERVICE, MN 553 26 NOV PM 1971" addressed [REDACTED]
- Q4 Accompanying one-page handwritten letter dated Nov. 25, 1971, beginning [REDACTED]

b6
b7Cb6
b7C

Specimen received 12/2/71 from Sacramento

- K1 One copy of the final edition of the 11/26/71 issue of the MODESTO BEE

Result of examination:

Q1 through Q4 were not identified in the Anonymous Letter File. Appropriate copies of these specimens have been added to this file for future reference.

11/30/71

Examination requested: Document - Fingerprint

Remarks:

DO NOT INCLUDE ADMINISTRATIVE
PAGE(S) INFORMATION IN
INVESTIGATIVE REPORT

Q1 through Q4 will be returned with the fingerprint
report.

Sacramento is referred to Las Vegas teletype to the
Bureau, dated 11/30/71, requesting photographs of Q1 and Q2
for CII, Sacramento. These photographs are enclosed for
Sacramento and are to be delivered to [redacted]
Supervisory Special Agent, CII, for comparison with the
Zodiac case. The hand printing on Q1 is disguised and nothing
of significance was noted in the comparison with the questioned
hand printing in the case "Zodiac; Extortion, OO: Sacramento,"
Sacramento file 9-68, Bureau file 9-49911. No connection
could be established by the Laboratory between Q1 and Q2 in
captioned case and the Zodiac case.

PROTECTIVE BULLETIN

THE AMERICAN BANKERS ASSOCIATION

INSURANCE AND PROTECTIVE DEPARTMENT

PLEASE REFER TO YOUR SECURITY OFFICER

Vol. LXIV, No. 5 • Copyright © 1971 • The American Bankers Association, 1120 Connecticut Ave., N.W., Washington, D. C. 20036 • November 1971

INFORMATION AS TO FURTHER ACTIVITIES, LOCATION, OR ARREST OF ANY OF THE FOLLOWING PERSONS SHOULD BE COMMUNICATED PROMPTLY TO POLICE AUTHORITIES NAMED IN THE WARNINGS, ALSO TO OUR INVESTIGATORS, THE WILLIAM J. BURNS INTERNATIONAL DETECTIVE AGENCY, INC.

STOLEN ITEMS

The Schroder Trust Company of New York, N. Y. reports the theft of ten treasurer's checks numbered B-45491 through B-45500. One of the checks numbered B-45492 was presented to the Bank of Montreal in New York through their Toronto office; however, they recognized the forged signature and withheld payment.

If any of these items are detected, please notify the Schroder Trust Company, New York, N. Y., Telephone No. 212-269,6500; also our investigators' head office, 320 Old Briarcliff Road, Briarcliff Manor, N. Y. 10510.

Arnold Plotz 11228
Alias Paul Heinz
Wisconsin Confidence Game
40 years, 6 ft. 2 to 3 in., medium build, graying hair, wearing goatee and metal-rimmed glasses.

Operating a confidence game, a man using the names Arnold Plotz and Paul Heinz has defrauded several banks in Wisconsin.

On one occasion his method of operation was to call a teller at the drive-in window of a local bank and state that he was calling from a manufacturing company that has an account at the bank. He asked the teller to make up a withdrawal of \$8,235 in various denominations, explaining that the money was to be used for awards to company employees. Later the suspect called the bank, gave the teller the name of the person who would pick up the envelope containing the money, and also stated that the person had left the company without the check. He gave the teller the company's account number and advised the teller to debit the account.

The subject later called the manufacturing company identifying himself as a bank employee and stated that samples of new deposit books should be picked up at the bank's drive-in window. A company employee picked up the envelope at the bank and when the employee returned, the subject called advising the company not to open the envelope because a mistake had been made. A cab driver, receiving instructions from the cab company dispatcher, went to the company, picked up the envelope and, following instructions, delivered it to a Will Call Company, where it was to be picked up by a Mr. Paul Heinz. The subject went to Will Call, identified himself as Paul Heinz, and left the area.

When this subject is identified, located or arrested, notify the Chief of Police, Sheboygan, Wis.; Wisconsin Crime Laboratory Bureau, Madison, Wis.; also our investigators' head office, 320 Old Briarcliff Road, Briarcliff Manor, N. Y. 10510.

Alice Melanie Briggs 11225
Alias Alice Coleman, Patricia Ellen Sprengler, Valerie Johnston, Lois Elaine Ellis, Faustine D. McNair
New York Forgery and Grand Larceny

30 years, 5 ft. 7 in., 230 lbs., bleached blonde hair, may wear different wigs, brown eyes.

F.P.C. 16/ M/S 17/1
W/U 100/000 15/13

Alice Melanie Briggs was arrested in Syracuse, N. Y. on September 10, 1971 and charged with forgery and grand larceny. She was released on \$1,000 cash bail and failed to appear in Syracuse Police Court for examination, and a bench warrant was issued for her arrest under the name Faustine D. McNair.

DB Cooper 31862

Nov. 28th, 1971

MR. TOM MANNING
F B I
WOODLAND,
WASHINGTON

DEAR MR. MANNING,

[REDACTED] I HAVE
SOME IDEAS ON YOUR HI-JACKER;

b6
b7C

"MIDDLE AGED" --- HE IS A VETERAN OF WORLD WAR II.

"EXPERIENCED PARACHUTIST" --- HE IS EITHER AN ARMY
OR AIR FORCE VETERAN. WAS A PARATROOPER IN WWII.

"JUMPED OVER WILD COUNTRY AT NIGHT" --- IS FAMILIAR
WITH THE GEOGRAPHY OF THAT AREA THEREFORE PROBABLY
RESIDES THAT AREA. HAS HUNTED IN THAT AREA.

ACTION --- CHECK ALL VFW AND AMERICAN LEGION POSTS THAT
AREA, ALSO VA HOSPITALS.

"WAS GIVEN FOUR PARACHUTES" --- WHY FOUR ? FOR A
DESIRED 'SOFT' LANDING HE WOULD NEED ONLY TWO.
CONCLUSION --- HE HAD AN ACCOMPLICE WHO USED THE
OTHER TWO 'CHUTES (ARE YOU SURE THAT ALL THE PASSEN-
GERS GOT OFF) POSSIBLY EITHER A WOMAN OR A 'TEENAGED
BOY WHO REMAINED HIDDEN BEHIND AND REAPPEARED AFTER
THE PLANE TOOK OFF AFTER THE CABIN DOOR WAS LOCKED,
AND THEN GAVE HIM THE NECESSARY HELP THAT HE NEEDED
AND VANISHED WITH HIM.

I HOPE THAT THESE THOUGHTS ARE HELPFUL TO YOU.

SINCERELY,

[REDACTED]
BALTIMORE, MARYLAND

DB Cooper 31865

Dear Police: Portland, A Woodland
Re: Hysher - 200,000
Case

1. My theory:

This man is crazy like a fox.
This was planned well.

a. This man, no questions in
my mind, a former Marine.
No soldier in the Army, has
their daring. A Paratrooper.

b. He was a former huntsman
& loves sports. The wilds bore no
horror for him. He was also a
former scout graduating into a
Sportsman. Huntsman.

He knew these wilds well.
Hunted there, etc. He figured that certain
"game" got a hold; he could drop
down in such wilds with dough.

c. Marine paratrooper releases,
particularly, their induction papers
in service, should be studied. The
clue is in the induction papers.
He mentioned scouting & hunting
to show his daring for the
Marines. He was not secretive or
such.

d. This man, in some way, was
discovered. He hid his confidence &
light under the 'bushel'.
A very secretive type. A known paranoid
man. definitely Born
e. possibly see letter 23rd Nov 1954
If I'm right, please see get the
reward.

Very Best,
Cecy

b6
b7c

* They must
be secretive type.
They do not
confide in others.
One can't get anything
out of them, unless they
want to talk. He sounds
as if he worked in
dock like a longshore man.
from his hands
I have heard many things &
some times for sure.

Re: Hijacking of 727 jet.

Gentlemen:

A note to suggest that the skyjacker may have parachuted from the plane very early after take-off as the plane turned over Puget Sound.

This way he would know exactly where he was - the only time he could be sure where he was.

Also he would be landing on water which is far safer

than parachuting on to land
at night.

The cylinders the stewardess
described would be compressed
air cylinders for a small
inflatable raft.

The web sky jacks would
lead back to ~~an~~ a reference
point on land. Probably airport
lights. His car would be
waiting with dry clothes.

Mr. Edgar Hoover
F B I
Washington, D. C.

Dear Sir:

In regard to the hi-jacked plane out of Seattle - with the \$200,000 paid to whom?

A very strange case indeed. Just a thot on the part of an outsider is following.

Why could this not have been a job by part of the crew.

Who saw the man to buy ticket? Who took the money bag? Who asked for the ransom?

The stewardess could have worked it out with a little help possibly.

Why did not the trailing planes see the jumper if he left the jet as told.

It may be a wea rd idea but I believe the FBI could check that angle.

From an amateur sleuth

Yours truly,

P.S. This letter sent to Mr. Hoover and the Seattle FBI

Re Hijacked plane from Seattle.

For what it is worth, and on many occasions [redacted] has been so completely accurate, we utilized a capacity of hers to locate missing people and things and she comes up with your hijacker baling out very close to Oregon City. or lived

b6
b7C
b7D

She feels he knows the area, lives there, has jumped there, either as a paratrooper in the past or more probably as a club member of a parachute gang.

He knows a hell of a lot about flying, what one can and cannot jump from, speeds, heights, etc and is probably a pilot himself.

She would suggest checking also on any known jumper or jumper/pilot who left the area in recent years.

This letter is in confidence Absolutely NO PUBLICITY please. It is only after watching [redacted] in this kind of affair ~~xx~~ coming to pass so frequently I prevailed on her to let me drop you this line.

b6

Dear Sirs,

I have read in the newspapers of
your efforts to locate the parachutist who
hijacked the 727.

b6
b7C

The reason for my letter is that I have
[redacted] therefore

might have some a priori knowledge or instinct
of how another experienced jumper might
think and react.

You hypothesized that: since he is an
experienced jumper, he would leave the plane
over a dense, wooded, unpopulated area. No!

Night jumps are well controlled at most commercial DZ's. The DZ is usually circled with cars with their lights turned on with some flares going in the center. My point here is that, if an experienced jumper is, for example, blown over this prearranged DZ, he has two choices: 1, turn into the wind and land and land he lands close by and doesn't back into a tree, cars, building etc.; 2, get on the wind line and turn and run and pick an alternate DZ that is both lighted and big enough that he can get into. Most experienced jumpers will take #2.

The skyjacker would have gone into this dark wooded area at night only if he could have identified a prearranged marked DZ before leaving the aircraft.

The experienced jumper can sense wind speed and direction in free fall and can make adjustments accordingly. "Tracking" for example in which you can move one foot horizontally for every two feet vertically (some jumpers can achieve a better ratio, some worse, and some not at all).

Sincerely Yours

RE: D.B. COOPER

Dear Duty Agent;

I am sending this letter at the request of the Duty Agent of April 27th. I have mixed feelings about providing this information since I am not certain that it is totally reliable. I also believe that the statute of limitations may have run out on this case.

In November I saw a composite drawing of D.B. Cooper on TV. At that time I was certain that it was someone I knew. I later talked with the individual and learned that he had been [Redacted] Western Airlines. I also learned that he was (is ?) a sky diver. He changed careers after being [Redacted]. He left the country and went to [Redacted] working in various locations in the US including Alaska.

b6
b7C

In January I took his photograph which is enclosed. Perhaps you can check it against your drawings. After this length of time I am no longer certain that the picture I saw on TV does in fact resemble the photo. ← 1A

One other, very subjective, thing. Although he has been nothing but civil and friendly with me I have observed that he has a mean disposition with little provocation.

If you feel there is any merit in pursuing this information I will then provide you with a name and possible location of this individual.

A few words about myself. My husband and I are retired. I was [Redacted] [Redacted] We left San Diego five years ago [Redacted] We ended up in Mexico where we built a home. We have family in the US where we will return one day; our Mexico stay is just a phase.

FBI ending hunt for Cooper cash

VANCOUVER, Wash. (AP) — The search along a Columbia River beach for more money from the D.B. Cooper hijacking eight years ago probably will be suspended after today, FBI officials said Thursday.

Meanwhile, a geologist concluded that several thousand dollars found Sunday by an 8-year-old boy on a family picnic was deposited on the beach in the past year or two.

FBI agents continued to dig for more of the \$200,000 that Cooper took with him when he bailed out of a plane on Thanksgiving Eve in 1971.

The search began Tuesday along the river's north shore, about three miles southwest of downtown Vancouver. Additional scraps of money were found on Wednesday.

A man whose passenger list was signed "Dan Cooper" left a Northwest Airlines plane that was bound for Reno, Nev., from Seattle after he displayed what appeared to be a bomb and obtained a package of \$20 bills and three parachutes.

FBI agents believed he left the plane, during a storm, about 20 miles northeast of where the crumpled and weathered bills were found.

It is the nation's only unsolved hijacking.

"We'll work today and tomorrow and probably knock it off and bring my troops back up here and reassess the situation," said Jack Pringle, assistant agent in charge of the Seattle office which took over the search operations.

"Some of the area is inaccessible and there's no way we can search the whole river," Pringle said.

He said geologist Leonard Palmer of Portland State University concluded that the dredging operation in 1974 did not put the money onto the beach, because the bills were found above clay deposits put on the banks by the dredge.

Brian Ingram, when scooping out a place for a campfire, found the money, tied together by rubber bands in three clumps, under a thin layer of sand.

The bills were matched to the Cooper loot by serial numbers.

On February 21, 1980, [REDACTED]
[REDACTED], Port Angeles, Washington, telephone
number [REDACTED] provided the following written report
concerning information regarding the notorious case
known as D. B. Cooper.

Attached to this memorandum is a written report
that the [REDACTED] made up for news radio KOMO, Seattle,
Washington, which tells their story in full.

However, additional comments made by the [REDACTED]
indicate that in the pertinent time frame of the fly over
of the aircraft in their area they saw two large flashes
originally explained to them as transformer blowouts. They
indicated at this time the weather was patchy overcast, some
sprinkles, and wind and the temperature they believed to
be somewhere around the 40's.

The area in question is open or log fields which
would be conducive to signals and the landing of someone
who might be parachuting.

Dear Governor Ray;

I saw on T.V. Last night where you have announced that you are running for a second term.

My Article in the Valinda Herald Republic Valentine day I sent you and also President Carter congratulations on your second term in office. You have confirmed my Psychic prediction.

Governor Ray, there is something I wish to approach you about, and that is D.B. Corner who hijacked a jetliner in 1971 and parachuted into folklore Somewhere in the area of Vancouver Washington.

Recently they found some of the loot in the sand beach near Vancouver wash. The FBI are still in a quandry about the find, and also the whereabouts of the so named D.B. Corner.

I am a well known psychic and have solved single handed and captured a county wide armed robber and escaped convict in the [redacted] and turned him over to the sheriff. This I followed my psychic intuition and wrote a note first of my vision and followed thru alone and was 100 % correct. this was the year [redacted]

b6
b7C

I have predicted many things psychically that comes true.

What I am trying to tell you is this;

Psychically I saw the white house close to the area where the loot was found last month. This white house had upright of 4 by 4s and ten inch ship lap boards and is about to fall into shambles. In front next of the house is gone but [redacted] is filled almost completely adjacent to the house is fortification of the right place.

For [redacted] I am quite confident that if I [redacted] to go with the land where the loot was found, on the loot that I would be able to lead the F.B.I. of Washington law enforcement to this house. this one of D.B. Corner.

TAKE THE MONEY AND JUMP

MAY 12-18 BERKELEY BARB PAGE 11

HOW HE FOILED FBI

SUB R
164-81-8218

Last November 24th, a man identifying himself as 'D.B. Cooper' parachuted from a Northwest Orient Airlines 727 jetliner between Seattle and Reno Nevada with a parcel containing 10,000 twenty dollar bills which was the ransom money that had been delivered to him while he held the planes crew hostage at the Seattle-Tacoma International airport.

The F.B.I. and other state and local law enforcement agents assisted by companies of G.I.'s from Fort Lewis have futilely wasted many hours and thousands of taxpayers dollars looking for Cooper.

So far Cooper has successfully eluded his following in the same ingenious manner that he pulled off his skyjack caper, coolly staying a safe distance away from danger.

The F.B.I. headquarters in Seattle has vowed to scrutinize every foot of land between the Sea-Tac airport and Reno to turn up clues in the case.

Despite rewards of 5,000 dollars by the Media's "Fink on your Friends" program the public has generally granted Cooper adoration and somewhat a hero status. An anonymous interviewer from the twice weekly newspaper the 'Seattle Flag' has produced a story from a taped interview with D.B. Cooper which is validated by the presentation of one of the recorded twenty dollar bills included in the ransom money.

This story was run in the 'Flag' because the interviewer was unable to send it to the 'Post-Intelligencer' because they had the 5,000 dollar reward out for Coopers head also television stations would have requested a tape from which voice prints could possibly be produced. Therefore, running the story in the Flag was the only solution.

Cooper said that the witnesses description were off by about fifteen pounds and a couple of inches. Also that the artist's impression were very poor. When asked why he was still in Washington state he added that he felt it was safer to hide where no one would imagine him to be rather than to go to some place like Mexico or South America where the authorities would naturally expect him to go.

He said he started actual work on his skyjacking plan last June. The idea came to him while he was

it was a calculated risk that's why he jumped in bad weather and at night, also he waited a little longer than usual before pulling his ripcord. Adding that his free fall was about 5,000 of the total 7,000 feet. Which was very risky doing at night.

He came down about a hundred miles away from S.W. Washington contrary to the F.B.I. report that he touched down near Vancouver Washington.

The first thing he did on landing was bury his chute, he was within five miles of where he had intended in an evergreen wooded terrain. He credited this accuracy to his projected calculations and his Japanese watch. He wouldn't say whether he had an accomplice on the ground. He said he had lived in Seattle and had once

two parachutes he had ordered. A stewardess came back with the money in a canvas bag to where Cooper was holding another stewardess as hostage in the rear of the passenger cabin.

Cooper checked out the loot, first thing and noticed that they reeked of duplicating fluid. Then the stewardess made two more trips out on to the run way to bring in the chutes.

Then one of the fuel trucks pulled up...then he ordered the passengers off the plane, and everyone else into the cockpit...a middle-aged, executive looking man started to push his way back through the line into the tourist cabin. Cooper tensed up expecting the guy to try something heroic - but he had just left his briefcase on his seat and was retrieving it...

worked at Boeing's on the construction of the first Boeing 727 in 1963 and got to know the 727 from the inside out.

The reason he was attracted to the plan was the alignment of the three Pratt & Whitney engines two on the sides of the rear fuselage and the third at the base of the T-tail assembly. Also the down-flaps stalling speed, One hundred

He figured if the F.B.I. was going to make a move it would be at Sea-Tac. Everybody but the stewardess he was holding hostage and the three man crew was clear of the plane. Buzzing the cockpit he asked the captain what the hold-up was. Trouble with the vapor lock was the answer. And another truck was coming. Cooper told the Captain: "Not more than one fuel truck at a

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 2/14/80

[redacted], WXIA TV,
1611 West Peachtree Street, furnished the following
information:

He made available an original letter which is
typewritten and addressed to him, dated December 31,
1979, which is signed D. B. Cooper.

He also made available the envelope containing
this letter and a 3 x 5 card which was enclosed with the
letter and bearing the numbers "5346225496754."

He stated that he received this letter several
weeks ago and felt upon reading the letter that the
writer was not actually D. B. Cooper, a skyjacker, and
he based this assumption on the fact that the writer
stated the skyjacking occurred in 1969, which is erroneous.
He stated that he was making this letter available in view
of the recent publicity concerning D. B. Cooper.

Xerox copies of this letter and the envelope and
3 x 5 card are as follows:

February 15th 1980
Seattle Wa.

Dear Sir,

I was reading the wednesday edition of the Portland Oregonian about the finding of the marked bills from the Cooper highjacking and noticed the sketch of the highjacker that i hadn't seen before. I recognized a great similarity between it and a man i rode on a bus with from New York City to Spokane last June the 8th.

As long as we were going to same state we sat together and he told me what he had been doing in New YORK. He had been living in Nassau on Long Island and doing odd work to get by on. He said he had A sister in Spokane and was going there. When we got to Chicago he bought my dinner and rode the rest of the way with A tourist who was going as far as we were.

I am 68 years old and living on retirement so it does not make any difference about the reward offer being cancelled. I am enclosing my phone number and address with my name;

Dear Sir:

I have always been keenly interested in the infamous "DB Cooper" (Dan Cooper) caper, and, as a related item, I recall a government spokesman one time stating that some, or most, or all of the missing money was of a 1969 series and that, in his opinion, (I believe it was a Seattle based FBI man) not too much of the 20s of the '69 series was in circulation, etc., etc.

Well, on the following page are serial numbers of 20s I've handled within the past 30 days.

They all seemed to be in pretty good shape. All of them were included in bank deposits. I've b2 b7C The past 30 days

Those are the most recent ones I have handled. However, when I was [redacted] in Vancouver, Washington from 1971 to June 1977, and even in '76 and '77 I handled many, many 69 series 20s.

b6
b7C

It's no big deal I guess,
just trying to be helpful.
The point is, there seems
to be plenty of '69 series 20s
floating around, and the
fact that I am only one
little fish in the sea then
you can see clearly that
there must be many more
circulating in various categories,
such as taxis, restaurants,
bars, apt. houses, etc.

As a related item to
the "DB Cooper" caper, maybe
you know already that there
is (or was, not too long ago)

an [redacted]
in Portland, Ore named
[redacted]. So, it could be
someones twisted humor,
some acquaintance of his, maybe

b6
b7c

...even a revenge motive
to use his name during the
eaper??

Anyway, excuse me for
being born but I have a
very suspicious mind.

For example, my name
being [redacted] I once
met a fellow ~~and~~ whose name
was [redacted] Due to
and based on the age differentiated
I wondered if he could be my
[redacted]? I never
pursued it and so will probably
never know for sure.

b6
b7C

b6
b7C

I'll leave you with this
one: what is gray, has four
legs and a trunk? You say
an elephant? No way. It's
a mouse going on vacation!

Dear [Redacted]:

At the present time, there is no official reward being offered for finding either "Mr. D. B. Cooper" or the ransom money. However, the insurance company which has reimbursed Northwest Airlines for their loss in this matter; does, on an individual basis, negotiate rewards on a C.O.D. basis only.

In view of the fact that this is a pending FBI investigation, no confidential information can be released to you to aid in your locating either Cooper or the ransom money by the use [Redacted]

b6
b7C

It is suggested if you have any further questions, or information, that you contact the FBI Resident Agency in your area. This agency would be listed near the front of your telephone directory. The headquarters for your area is in Sacramento, California.

I wish to take this opportunity to thank you for your interest in this matter, and wish you the best of luck in your efforts to locate either Cooper or the ransom money.

Very truly yours,

John M. Reed

Sub E map
Sub S without map
Sub X without map

On July 31, 1972, [REDACTED],
[REDACTED], Vancouver, Washington,
advised he was recently contacted by [REDACTED], Wash-
ougal, Washington, who is [REDACTED]
[REDACTED] advised [REDACTED] has developed a
method, known only to [REDACTED]
[REDACTED], using his time honored technique.

[REDACTED] advised that sometime prior to July 30,
1972, he advised [REDACTED] that the captioned UNSUB exited
the instant aircraft somewhere in northern Clark County
or southern Cowlitz County, Washington, and on July 30,
1972, [REDACTED] took [REDACTED] to a location approximately
two miles northwest of Point A of the original search
area, and exhibited his technique, convincing [REDACTED] that
[REDACTED] had found the approximate location [REDACTED]
[REDACTED] advised no attempt was made
to actually locate [REDACTED], pending notification of the
Bureau.

On July 31, 1972, [REDACTED] revealed this location
to SA [REDACTED] at which time the location was
pinpointed on an aerial photograph of Section 10, Township
5, North Range 1 East, SW-67 FLT27-38 6-18-68 Scale 1 inch
equals 400 feet. The point was located by triangulation
from County Road 16, producing a prime search area (double
hatch marks) and a secondary search area (single hatch marks)
on the photograph.

[REDACTED] added that neither he nor [REDACTED] want their
identity revealed regarding this matter, in that if the in-
stant money is actually located using [REDACTED] procedure,
undue suspicions might be raised regarding their ability to
perform uncommon feats bordering on witchcraft.

RE: TELEPHONE SERVICE AT
COMMAND POST, MERWIN DAM,
(TELEPHONE NO. 225-7151)

On April 17, 1972, the writer contacted [] of the General Telephone Company, Gresham, Oregon, which handles the telephone service at Merwin Dam to discuss the billing of the telephone installed on 3/20/72 at the Command Post at Merwin Dam. It was explained to [] that, in view of the heavy use of the phone to make calls to Fort Lewis, this office was interested in exploring the possibility of having the entire billing made as a Watts installation, retroactive to the date of installation, if such a billing would be cheaper than having the calls treated as long distance calls. To make such a determination, however, the telephone company would have to determine what the bill is at this time. [] said he would request a special run of the billing for the above number which would take some three days as these runs are made every three days and would telephonically contact the writer or ASAC BIBLER.

[] advised, however, even if the Watts line would be cheaper he doubted if it would be made retroactive at this date.

It also was explained to [] that we might consider furnishing his company with a list of calls made from the Command Post to various numbers at Fort Lewis and have separate billings made up.

On April 18, 1972, SA MANNING advised that the Command Post at Merwin Dam would be totally deactivated by early noon of April 18, 1972, and he was then calling the local operator to have the telephone at the Command Post discontinued as of close of business April 18, 1972.

FILE (164-81)

2/11/72

SAC, SEATTLE

NORJAK

On 2/11/72 Assistant Director IVAN CONRAD called from the Bureau, in response to an earlier call from me, at which time he advised that (1) the Bureau does not have any aerial photographic equipment; (2) they do have an agent with certain expertise in this but they are of the view that the military has the best equipment. He suggested that the military be polled to determine if they would take the aerial pictures and what it would cost us. In addition, in talking to them determine if it's possible for them to take the pictures and give the film to us for developing as a means of reducing the cost.

I told him that we had initially arranged for the Air Force to do it. Then when the Bureau came out with the airtel advising that we must get the cost estimate first and get Bureau approval before utilizing Air Force equipment that we discontinued this effort. However, I now find that the Air Force had scheduled to take this picture on 2/17/72.

I told him I would explore this further and be in touch with him.

SAC, SEATTLE

Sub-5

NORJAK

During the investigation of the NORJAK case and specifically the ground search in the vicinity of Woodland, Washington, the services of a large number of police officers were utilized in the search.

In addition, Mr. JOE MAY, the Chief of Police in Woodland, furnished his own aircraft, flew it himself to assist in the search.

The purchase of gasoline was for MAY's aircraft. The food purchased was for the officers who were assisting in engaging in the search. They had no means of being reimbursed from their own funds.

Memorandum

TO : SAC, SEATTLE (164-81)

FROM : SA ROBERT H. WICK

SUBJECT: NORJAK

DATE: 1/11/72

Sul *E*
S

On January 11, 1972, [redacted] Department of Natural Resources, Olympia, Washington, made available about 40 aerial photographs covering that area outlined on the LaCenter quadrangle. These photographs were taken in 1968 and are in scale of 1" equals 1,000'. These prints cost \$1.50 each and a bill of about \$60.00 will be submitted to the SAC, Seattle.

b6
b7C

[redacted] also provided, at no charge several maps of the same scale concerning this area; an index to the photographs so the relationship between the maps and the photographs can be determined. He suggested if any stereo map reading is desired, contact should be made with the [redacted] Battleground, Washington, since he has the complete set of maps for the area and has personnel who can read the aerial photos.

b6
b7C

The maps and other material were furnished to SA [redacted] for transport to Longview RA on this date. A copy of this memo also was sent with SA [redacted].

PERSONAL ATTENTIONUTILIZATION OF MILITARY
AIRCRAFT IN BUREAU CASES

In connection with a recent aircraft hijacking, inquiries were made concerning the use of military aircraft to assist in a search. The question of reimbursement was raised. This matter has been discussed with the Department of Defense (DOD).

Advice has been received from DOD that military aircraft may be utilized for non-DOD purposes only when: (1) their movement is pursuant to an emergency involving imminent loss of life; (2) is specifically authorized by statute; (3) is in direct support of the military mission; or (4) is certified by the head of a Federal department or agency to be in the national interest and commercial transportation is not available. This is set forth in Department of Defense Directive #4500.9, dated November 29, 1971.

According to DOD, Section 686 of Title 31, U. S. Code, requires in every instance the DOD be reimbursed for the total costs involved in the utilization by any other Federal agency of any aircraft or equipment made available to such agency for use in connection with its own investigation. The Department of Defense further advised should any requirements in connection with our investigations develop which come within the above guidelines, DOD will consider them on a case-by-case basis.

DOD furnished the hourly rates for the most commonly used aircraft. These rates are set forth as follows:

FBI - SLATON

Suggested items for search

Compass for each man involved in the search - can probably be secured on loan basis at Ft. Lewis.

Rain gear consisting of hooded jacket and rain pants for each man - can probably be secured from Ft. Lewis on loan for each man on search. If not available there can be secured from US Navy at Bremerton.

Rations - K and C rations with heat elements can be secured at cost or possibly free of charge from Ft. Lewis.

Field packs - it is felt each man involved in search should have at least one half of the regular field pack to carry rations, and other essential items. Can probably be borrowed from Ft. Lewis.

Each man on search should have a handi talki radio in order to insure proper communications and to assist in event individual becomes lost in wooded area.

Squad whistle for each man in search party in order to facilitate in locating others in party and in event searchers become lost or isolated. Can be secured from Ft. Lewis, or purchased commercially.

Base radio capable of reaching all handi talki units to be set up in trailer base camp.

Each searcher to carry two cans of pressurized paint to slightly mark their paths on trees to insure full coverage of designated search area. Can be purchased commercially or through a paint surplus house in Seattle.

Each searcher to carry supply of evidence tape in event package of money found - procedure will be to leave in original position until another agent can arrive at scene to witness finding and bundling as evidence. Area in which evidence found is to be properly marked for later survey to pin point location of find.

One 50 foot length of rope for each two agents involved in the search. Can probably be secured from Ft. Lewis.

5 grappling hooks to be used with rope (or possibly with rope attached) to be used for scaling cliff areas.

1 flare gun and box of red, green and white flares - probably can be secured at Ft. Lewis.

5 Mile ray lamps with replacement batteries

DB Cooper-32009

Each agent to have a flashlight with supply of extra batteries.

Each searching agent to have minor medical supplies such as band aids etc.

1/11/72

SA THOMAS J. MANNING

NORJAK

On 1/11/72 SA WICK, Olympia RA, was furnished with a copy of the map supplied by [redacted] and contact was made with the Department of Natural Resources, Olympia. It was determined that the entire area outlined by [redacted] was the subject of an aerial survey in 1968. Approximately 30 photographs give complete coverage of the area in question and are sold at \$1.25 per photo. Further SA WICK is securing, in addition to the photos, detailed maps made from the photos which can be used in conjunction with the photos for complete familiarization with the search area as it existed in 1968. It was pointed out by the Bureau of Natural Resources that there should be no major radical changes in the area since the last fly over. SA WICK was advised to purchase the photographs and it is felt the expenditure of the money for the photos and maps will not exceed \$50 and in view of the magnitude and importance of the search is a legitimate expenditure of Bureau funds.

b6
b7C

The above mentioned maps are being sent to the Longview RA this date.

In the event it is deemed advisable to make a fly over the prime search area set out by [redacted] for a general view of the terrain prior to a ground search [redacted] at Longview, Washington, [redacted] and extremely familiar with the area of the search, is available on an hourly or daily rental basis. It is felt that such a fly over would be advantageous for general layout information on the area and the cost of such service would not exceed \$50 per hour which sum could probably be negotiated to a lower amount on a daily basis.

b6
b7C

Facilities are available at the Longview Post Office for mounting the photographs and maps in proper sequence to enable personnel to be properly briefed on general terrain features and prime search area and the civil service examining room can be made available for such briefing.

It is to be noted that in the event interpretation of the above mentioned photographs in stereo is necessary personnel at the Battleground District office of the Department of Natural Resources are available with sufficient photo copies to perform this task.

Memorandum

TO : SAC, SEATTLE (164-81) (P)

DATE: 1/11/72

FROM : SA THOMAS J. MANNING

SUBJECT: NORJAK

Sub. 8
164-81-1854
1854
121972
J

Based upon maps received this date at Longview RA pin pointing a search area where the hi jacker could have landed and anticipating a walking search to be conducted in the near future in extremely wooded and somewhat hazardous terrain the following suggestions are being made.

Once the search date is fixed this matter be made a Special with the four California offices, Portland and Seattle to furnish four or five agents to participate in the search on a volunteer basis. The voluntary aspect is being emphasized in view of the terrain to be searched and the uncomfortable conditions which will undoubtedly be experienced by the searching personnel.

It is recommended that volunteers be sought from individuals who have some, and preferably extensive, experience in the use of a compass and hiking and camping experience and who are physically qualified to spend a period of time in a densely wooded area on what is essentially a problem similar to a military field exercise.

It is further recommended that the agent personnel assigned be cognizant of the fact that once the operation starts they will be required to remain overnight in their assigned searching areas rather than retracing areas covered to go to and from a base camp.

A list of recommended items to be secured for logistic support of this special is being prepared by the writer the majority of which can be secured from the Army or the Navy at little or no cost to the Bureau.

Aerial photographs of the search area as set forth by the map of plus terrain maps are presently being secured in order that the search area may be properly divided for maximum coverage by searching agents.

b6
b7c

It is also recommended that this search be a completely Bureau operation involving no outside agencies so as to limit the amount of publicity which is generated.

It is felt that the prime and secondary search areas, while in rough terrain, can be adequately searched by a small, select group of dedicated personnel who are doing it voluntarily and the search will either find the hijacker or lead to the conclusion that the area pinpointed by all available technical data has been completely combed for traces of the subject.

RE: AVAILABILITY OF HELICOPTER
FOR SEARCH PURPOSES BY THE FBI

On November 26, 1971, [redacted] advised
that he [redacted]
[redacted]
[redacted] Spanaway, Washington, office telephone [redacted]
[redacted] residence telephone [redacted]

He advised that he had heard of the skyjacking of Flight 305 of Northwest Airlines on November 24, 1971 and the search being conducted. He pointed out that he and his partner have a [redacted] four passenger helicopter and that he has had about 300 hours experience in searches. He advised he would be willing to make a search of the terrain near Woodland, Washington and would charge approximately \$200. per hour on a short term basis and \$175. if used extensively. He pointed out this helicopter can cover about 350 miles in one flight in a direct line.

He was advised the FBI was using Government equipment in the search but his offer would be made a matter of record in the office.

Officer in Charge
Federal Bureau of Investigation
1015 2nd Avenue
Seattle, Washington 98104

Dear Sirs,

Olympic Helicopters can provide valuable assistance to you as a time saver in your investigations and search operations. By eliminating wasted travel time for investigators and for evidence to reach your laboratories, a chartered helicopter can result in economies far exceeding the charter cost. A helicopter can also be invaluable for searches or surveillance operations.

We have two types of helicopter available for your charter. The Hughes 300 is a small two passenger machine that is ideal for beating the ferry schedule, congested or non-existent roads, or for searches. It cruises at 80 MPH and charters for \$75 per hour. For longer distances and when you are in a real hurry, our Hughes 500 turbine powered helicopter is the answer. It carries four passengers at 140 MPH cruise for \$225 per hour.

Respectfully yours,

b6

FEDERAL BUREAU OF INVESTIGATION

Date December 13, 1971-1-

[redacted] b6
Northwest Airlines, Minneapolis, Minnesota, furnished from b7C
their files the original of flight coupon number 1 of Northwest
ticket [redacted], which had been issued to a DAN COOPER
on November 24, 1971, at Portland, Oregon. [redacted] advised
that COOPER had paid cash for this ticket which was one North-
west Flight 305, the flight which had been hijacked on the
same date at Seattle, Washington. [redacted] advised that the
amount of the ticket was \$20. [redacted] advised that this paid
coupon had been handled by many Northwest employees and that
he doubted if it would be of any value in processing it for
fingerprints.

[redacted] advised that this was the only ticket issued b6
on Flight 305 on that day by the Washington, D. C., and Portland b7C
to a man using the name COOPER.

Re: AIRLINE TICKET USED BY SUBJECT

Investigation should be instituted to learn where subject purchased the ticket he used to board the above captioned aircraft prior to its hijacking. Investigation should then be conducted to back track to develop any possible information concerning the subject.

Inquiry should be started with Northwest Airlines at Seattle, to determine if they can provide this information or where it should be obtained.

Based on the findings at Northwest, the Agent handling this lead should pursue it and set out appropriate leads for the field division such as Portland, who might have that information.

WIND AND WEATHER-
SUB U

Re memo of SA [REDACTED] dated 3/14/77.

b6
b7C

On March 29, 1977, [REDACTED]
[REDACTED] Washington, home telephone [REDACTED]
was contacted at his home and he provided the following
information:

[REDACTED] stated he was flying on Continental Flight
306 which originated in Burbank, California, with a stop
over in San Jose, California, and another stop in Portland,
Oregon, and then the final destination was Seattle, Washington.

b6
b7C

[REDACTED] stated he landed in Seattle at approximately 5:30 P.M.
on November 24, 1971. [REDACTED] advised that it was his recollection
that Northwest Orient Airlines Flight 305 landed at Seattle-
Tacoma International Airport at approximately 5:32 P.M. on
that same night. [REDACTED] advises estimated time of departure
was 6:10 P.M., but he actually left Seattle at about 7:09 P.M.
to fly back to Portland, Oregon.

[REDACTED] advised that when he landed at Portland the
wind was from 160 degrees at 35 knots and this was approxi-
mately 7:49 P.M. During the flight down to Portland, [REDACTED]
noticed that his cruising altitude of about 13,000 feet that
he was flying into a headwind of about 60 knots. [REDACTED]
explained that on the way to Seattle from Portland his
ground speed was 480 knots, but on the way back down to
Portland his ground speed was only 420 knots. According to
[REDACTED] the wind apparently was shifting from approximately 160
to approximately 200 degrees.

Re information from [redacted], Continental
 Airlines

On 2/22/77, [redacted] Continental Airlines,
 Seattle, Washington, was interviewed at Portland International
 Airport by SA [redacted] furnished
 the following information:

On the night of 11/24/71, during the hijacking in
 this matter, he, [redacted] a Continental Air-
 lines flight between Seattle, Washington, and Portland, Oregon.
 He became aware of the hijacking by radio and followed the
 progress of the hijacking by monitoring the discrete radio
 frequencies in his own aircraft:

[redacted] advised that he departed Seattle-
 Tacoma Airport enroute for Portland shortly after Northwest
 Flight 305, which was being hijacked, and that he followed
 the same course flown by Northwest Flight 305 but was approximately
 four minutes behind the Northwest flight when it arrived at
 Portland.

[redacted] advised that in his twenty-four years
 flying airliners, he recalls that night of 11/24/71, as being
 the most rapid and severe weather change in his experience.
 He said that when he was approaching Portland, along Victor 23
 airways flying a course of approximately 166 degrees, he was
 experiencing a wind directly from 166 degrees at 80 knots of speed
 at his altitude which was 14,000 feet. He said that the wind

SUBJECT: NORJAK
(OO: Seattle)

Re Bureau airtel to receiving offices, dated 11/13/72, Sacramento airtel to Kansas City, dated 11/30/72, and Denver airtel to Bureau, dated 12/8/72.

For information of the Bureau, [redacted] was contacted on 12/8/72, and was shown the new composite of the subject in the NORJAK case.

[redacted] advised that while this composite does not exactly portray the subject as she recalls him, it is an extremely good likeness. She stated that she recalls the subject to be slightly thinner than the composite portrays, and she feels that the forehead in the composite should be slightly narrower. She also recalled that the subject's hair looked greasier and was combed flatter or slicked down more than the composite indicates. [redacted] said that the nose, mouth, and ears as portrayed in the composite are exactly as she recalls the subject's appearance. Her overall comment was that the new composite is probably as close as can be depicted.

[redacted] was also shown a composite of the suspect in the TWABON case as well as a photograph of [redacted]. She advised that neither of these photographs shares any likeness to the subject in the NORJAK case.

[redacted]
[redacted] Portland International Airport, Portland, Oregon, furnished sheets containing read out information and key to aviation weather reports for weather conditions between 7:00 and 9:00 p.m. on November 24, 1971. He interpreted the read outs as follows:

Surface observations: 7:00 p.m.

Eugene, Oregon: 2,500 feet scattered, 3,800 feet scattered, 11,000 overcast, visibility 15 miles, temperature 42, wind SSE 8 knots, breaks in overcast.

Portland, Oregon: 2,000 feet scattered, measured 3,400 feet broken, 5,000 feet overcast, 15 mile visibility, very light rain showers, temperature 46, wind SE 4 knots. Rain began at 6:35 p.m.

Toledo, Washington: 3,500 scattered, measured 4,700 feet overcast, visibility 12 miles, temperature 41, wind SSW 4 knots. Rain ended at 6:15 p.m.

8:00 p.m.

Eugene, Oregon: 1,600 feet scattered, 2,500 feet overcast, 10 miles visibility, light rain showers, temperature 42, wind SSW 12 knots, rain began at 7:34 p.m.

Salem, Oregon: 1,500 scattered, measured 2,600 overcast, 5 miles visibility, light rain showers, temperature 43, wind SSS 9 knots.

Portland, Oregon: 1,500 scattered, measured 2,700 broken, 5,000 feet overcast. 7 miles visibility, light rain showers, temperature 42, wind west 10 knots.

Toledo, Washington: Measured 3,000 feet overcast, 12 miles visibility, very light rain showers, temperature 42, wind south 5 knots. Rain began 7:35 p.m.

Investigation at Longview RA territory, 11/30/71, consisted of contacts with all hospitals, doctor's clinics, in Clark, Cowlitz, Lewis, and Wahkiakum counties, all negative. Doctors and other medical locations being circularized with descriptive information and composite photograph by interested medical authorities.

A four seater helicopter of the Bonneville Power Administration conducting air search in an area 20 X 20 miles with negative results. The three-day use of helicopters and fixed wing aircraft in the prime search area in the opinion of the writer has been completed. No information of value has been uncovered in this aerial surveillance.

Information concerning [REDACTED]

[REDACTED] has been previously furnished in teletype sent to the Las Vegas Division this date. Close observation of terrain features in the search area composed of 500 square miles and has been flown for three days consists of the following:

Around Lake Merwin in the northern most part of the search area there is a ridge line which averages 1700 feet running in an east to westerly direction with dense timber, extremely heavy undergrowth and few clearings. Proceeding north and east of this location into Cowlitz County the terrain becomes more timbered with heavy growth of underbrush along the flight path

For record purposes, I called SAC WHALEY at Albuquerque on 11/29/71, and told him I understood that there was a research project at Hofloman Air Force Base in New Mexico dealing with the effect on a body of high altitude parachuting and the effect of low temperatures on a body in case a jump was made. I asked him to see if he could contact the person responsible for the survey to give us some notions about what effect this would have on the man making this jump.

I told him that the weather was clear to 1500 feet, broken clouds to 5,000, solid above, and that the jump was possibly made around 7,000 to 10,000 ft. at a time when the "total average temperature" was minus 7 degrees.

SUB W - WITHOUT ENCLOSURE

Enclosed to this memo is a copy of a story that appeared in the June issue of Mobster Times entitled, "Skyjacking: The Plane Story of D. B. Cooper." It is noted much of the information contained in the article is erroneous but two statements were of interest and there are quoted for information purposes as follows: "He had chosen a 727 because the 727 is the only kind of commercial jet from which it is safe to parachute." "He who steals a plane and \$200,000 and leaps out into the night sky is a hero."

For your information the Air Transport Association, Washington, D. C., which is acting as the administrator of a reward program designed to pay for information leading to the arrest and conviction of persons involved in aircraft piracy etc., was contacted concerning the offering of a reward relative to captioned case. They have advised that they have considered providing such a reward concerning this case and that formal notification will be forthcoming. You will be advised upon receipt of this information.

With regard to the additional suggestion you made relative to the fact that nationwide circularization be made of all banks, savings and loan associations, and commercial companies who have available safe deposit boxes on the theory that . . . subject may have escaped safety and secreted money in such a box is not being approved. Wide circularization has already been provided banking type institutions relative to the ransom list in this case.

NORJAK

RE: REWARD

At approximately 10:15 AM, on 4/26/72, a male who did not identify himself, telephonically contacted the office to inquire as to any reward being offered for the money paid in the hijack of NW Airline Flight #305.

He was informed that the POST INTELLIGENCER has a \$5,000 reward as part of their "Secret Witness" program.

The caller, who appeared to be a young coherent man, said he wondered if there would be any reward in addition to that \$5,000 for the return of the money asking whether or not insurance company's who insure such large sums don't automatically pay a 10% reward of any money returned. He was advised that if he could provide information which would assist in identifying and locating the hijacker that although the writer could make no promises of any reward, it was indicated that there was a good possibility that it would be worth more than the PIs \$5,000. The caller stated that he had been told by a friend whom he refused to identify that a short time after the hijacking, this person allegedly saw a parachute in the trees and the caller indicated that it was an area where there was lots of snow.

The writer asked the caller if he would like to have some help. I asked him if I should bring a shovel. He answered that I might need a shovel to bury the hijacker, if he is still hanging in the trees; however, he further refused any help.

The caller did not saw when the information was received or from whom. Attempts were made to have him come to the Seattle Office and give us the information he says he possesses and let us make the search but he said he would either check it out first himself, after consulting a friend of his, who is apparently privy to the same

Memorandum

TO : FILE (164-81)

DATE: 12/21/71

FROM : SAC, SEATTLE

SUBJECT: NORJAK

On 12/20/71 I talked to SAC HELD in Minneapolis. I told him that we had made extensive efforts to search the area where the hijacker is believed to have jumped, without discovering any evidence of his whereabouts or identity.

The Northwest Airlines people here have advised that they would be glad to simulate his flight, having a man jump to see whether the crew experienced the same reaction as recorded on the initial flight, and if the flight recorder records the same movement of the plane. If it did not, then it would appear that there was little use searching in the area we were searching in. If it did have the same reaction, then we would have to search an area approximately 2½ miles by 6 miles of virgin timber.

I told SAC HELD I thought it would be well if possible to have the same airplane used with the same crew but I did not see any reason for them to actually jump in the same area since it would be too dangerous and we may lose the jumper, but I did think it would be a good idea to simulate it in an area where the jumper could be recovered.

He advised he had talked to Mr. NYROP about this and that he had instructed that the crew and plane be put together for this purpose as soon as possible.

I inquired of him the status of their proposed offer of a reward and he advised Mr. NYROP had told him that the Seattle P-I Secret Witness Program had announced a \$5,000 reward, which was true, and that he would give consideration to making another \$5,000 offer for information furnished to Northwest Airlines or the FBI, furnishing the identity of the hijacker and evidence to assist in his conviction.

P-I Secret Witness Offering \$5,000 For Plane Hijacker

BY WALTER A. EVANS

The Post-Intelligencer's Secret Witness program established a \$5,000 reward for information leading to the arrest and conviction of "D. B. Cooper," the hijacker who bailed out of a Northwest Airline jet Nov. 24 with \$200,000 in cash.

The reward will be paid by The P-I promptly after hijacker's conviction and the denial of a motion for a new trial.

Anyone who has information as to the identity of a man known to law enforcement officials as "D. B. Cooper" (the name he used when he obtained his ticket on the Northwest Airline jet), should call the Secret Witness editor at 622-7878, or write the Secret Witness Editor, P.O. Box 298, Seattle, Wash. 98111.

The bizarre case got under way when the hijacker who had boarded the plane in Portland, approached a stewardess with a note demanding \$200,000 and four parachutes.

He displayed a brief case that contained several leaded cylinders connected by pieces of wire.

While the plane flew from Portland to Seattle, Northwest officials were notified and they began frantically collecting (and recording serial numbers) of the 10,000-\$20 bills from local financial sources.

They also obtained the parachutes from Seattle Skysports, Inc.

The short flight from Seattle to Portland had taken a numbing 2½ hours, but the other 35 passengers aboard the plane were unaware of the drama going on down on the ground — or in the aircraft.

At 5:40 p.m. everything was ready and the plane touched down at Seattle-Tacoma International Airport five minutes later.

Within 20 minutes, the passengers had left, the money and parachutes were on the plane and the cabin crew and stewardess Tina Mucklow were hostages.

Difficulties in fueling operations delayed the take-off for a tense hour, but by 7:40 p.m. the jetliner was airborne and headed for Reno, Nev.

Somewhere in the dark night, with the plane flying at low speed, the cabin depressurized and the door open, "D. B. Cooper" parachuted into the black night.

There's the description given — a man in his mid-40's, 6'1" tall, 175 pounds, wearing a dark business suit and dark glasses.

The description is all that remains. "D. B. Cooper" disappeared into the darkness on Nov. 24 and,

despite an intensive search in Clark County, he never has turned up.

The reward for "Cooper" is the first established under The P-I's new Secret Witness plan. Others, to help law enforcement officials solve major unsolved crimes, will be offered in the near future.

Rules for participating in the Secret Witness program accompany this article.

Dear Sir:

I would like for you to furnish me with what information is available on the person D. B. Cooper, known as the missing sky-jacker. As to possibly his age, height and weight. Did he wear any western clothes at the time? Do you know if he had any indian connections at the time? And is there a reward offered for his apprehension?

I am aware of a prime suspect, who spent a large sum of money after this sky-jacking took place and no one knows where the money came from.

I would appreciate this information as soon as possible, or you may have an agent contact me at my home.

Respectfully

UNITED STATES DEPARTMENT OF JUSTICE 1-76
FEDERAL BUREAU OF INVESTIGATION

WASHINGTON, D.C. 20535

April 15, 1976

MEMORANDUM TO ALL SPECIAL AGENTS

RE: COMPUTER SUPPORT TO THE FIELD

The main thrust of our computer support effort in the past has been directed at administrative and National Crime Information Center (NCIC) matters. It is now my desire to concentrate more on ways our computers can support the Agent in the Field. This is to make you aware of the computer services that are presently available to you.

The Data Processing Section (DPS) of the Computer Systems Division is responsible for working with the Field on investigative matters. Agents with specialized backgrounds have been assigned to this Section and will assist you if some aspect of a case lends itself to computerization. This might be a large volume of records (e.g., checks, cash receipts, purchase orders, personnel records, payroll records, telephone numbers, etc.) that require sequencing, comparing or calculating, to disclose misappropriations, kiting, lapping, skimming, padding of payrolls, identities of suspects, conspiracies, etc. If you think the work can be performed more practically on the computer, you should contact the DPS.

The DPS also offers assistance in the following areas:

1. Printing records that are in computer form (e.g., records on computer tapes, disks or cards).
2. Assistance in writing search warrants for, and conducting searches of, computer installations.
3. Assistance in writing subpoenas for computer records.
4. Assistance in auditing computer records.
5. Assistance in interviewing computer personnel (e.g., computer analysts, programmers, operators, etc.).
6. Computerized Telephone Number File (CTNF) services which will resequence telephone numbers to facilitate setting leads and identifying subscribers.
7. Special searches of the NCIC current files or previous records, in addition to the normal NCIC service.

The DPS is ready to assist the Field in all future major cases. DPS has developed a "Major Case Information System," a prototype of which was used in the RESMURS Case. A similar system is presently being used in the LAGBOM and ZAPBOM Cases. From this system, the Agent can more readily determine what investigation has been conducted on the case, and what leads are still outstanding. The system will also benefit the Agent when writing reports, answering inquiries, controlling physical evidence and for file review prior to trial.

Part II, Section 3 (pages 28 and 29) of the Manual of Rules and Regulations sets forth the way to request computer support services for investigative matters. I encourage you to take full advantage of this service.

Re Seattle airtel to Bureau, 11/1/72, Norfolk
airtel to Bureau, 11/9/72.

Enclosed for WFO is one-copy each of re communications.

WFO is to contact the National Military
Command Center, Washington, D.C., and request a training
mission in visual aerial photography be flown along the 87
miles of the NORJAK aircraft flight path that is under
consideration.The exact coordinates of the area to be covered
will be provided by Seattle Division, if the training
mission is approved.

This lead is being set out on a UACB basis.

Re Seattle airtel to Bureau 11/1/72.

On 11/7/72, interviews were conducted with the following individuals assigned to the [redacted]
[redacted], Langley Air Force Base, Virginia:

b6
b7C

[redacted]
[redacted]
[redacted]

It was the consensus of opinion among the three individuals above, each of whom has had considerable experience with infrared imagery, that efforts to locate the attache case by this means would probably prove futile. The terrain, as described, would neutralize any effort, particularly if tall trees and mountains are part of its makeup. Further explained was the necessity for the presence of heat which would need to be generated by the object (attache case) in contrast to the surrounding terrain for successful infrared high resolution photography. The size of the attache case provides a poor target for any type of aerial photography, including visual photography.

The following background information is being provided to the Norfolk Division: Unsub had with him prior to the time he jumped the following:

- A. Parachute Back Pack
- B. Parachute Chest Pack
- C. Briefcase or attache case
- D. Dark overcoat
- E. A 4x12x14 paper bag
- F. A pair of dark slip-on shoes.
- G. Wrap around sunglasses with dark rims.
- H. 10,000 \$20 bills.

Since none of the above was found when the plane was searched at Reno, Unsub must have taken them with him, or discarded some of them prior to jumping.

The above-described attache case supposedly contained a bomb. It is believed Unsub threw this attache case from the plane prior to his jumping, because of the numerous other items he had to carry. If he did throw it prior to jumping, it would fall almost directly in the path of the aircraft. The 727 air stairs were lowered sometime after 7:42 p.m. and Unsub jumped prior to 8:15 p.m. on November 24, 1971. The plane covered a distance of approximately 87 miles during this time.

Memorandum

TO : SAC, SEATTLE (164-81) (P)

DATE 10/19/72

FROM : SA THOMAS J. MANNING

SUBJECT: NORJAK

SWB R
SUB F
SWX

On 10/19/72 [redacted], Washington, telephone [redacted] telephonically contacted the Longview RA and advised that he lives just north of the [redacted]. He advised that to get to his residence [redacted]

b6
b7C

He pointed out that the night of the hijacking he was watching television and heard an announcement concerning the hijacking. Almost as soon as he heard the announcement a large plane flew low overhead and flew slightly to the east of his house over [redacted] area. He pointed out the area into which the plane flew was one which is extremely heavily wooded and an area into which one would have difficulty going on foot.

b6
b7C

He advised that he has been thinking of calling the FBI on this matter but has kept putting it off and feels that the flight of the plane that night would indicate that the area searched to date has not included [redacted] area and the route over which the plane flew. He pointed out that he lives directly under the north-south flyway for the airlines and this is the only time that he and [redacted] have ever heard a plane flying over that low. He requested an agent contacting him personally in order that the flight of the plane could be accurately described.

b6
b7C

Contact with [redacted] will be made 10/20/72-

b6
b7C

One copy of this memorandum furnished to SA [redacted] at Longview RA for handling on 10/20/72.

Specimens received 9/28/72

Q49 Envelope bearing hand printed address "Los Angeles Times Times-Mirror Square Los Angeles, Calif."

Q50 Accompanying two-page hand printed letter, first page beginning "Dear Sirs, [redacted] is Dead. "D. B. Cooper"..." b6 b7C

Q51 Second page beginning "Everything I've said here is..." and signed [redacted]

Result of examination:

It was not determined whether the questioned writing on Q49 through Q51 was prepared by any of the persons involved in the preparation of the questioned material previously received in this matter. A conclusion could not be reached in this regard because of a lack of comparable writing and distortion in portions of the questioned material previously received; however, nothing of particular significance was noted in the limited comparison which could be conducted.

Q49 through Q51 were not identified in the Anonymous Letter File. Copies of these specimens have been added to this file for future reference.

No watermarks, indented writing, or other features were found on Q49 through Q51 which would be of value in determining the source of these specimens.

The submitted evidence was photographed and will be returned separately.

Reference Seattle airtel to the Bureau dated
 8/7/72.

In order that this case be given more publicity,
 the following leads are being set forth for Bureau
 consideration and approval:

1. Mats should be made of the artist's conception of Unsub so that small publications with limited funds can feature articles concerning this matter and include with the story a picture of Unsub without incurring the additional expense of having new mats made (Note: An editor of the Veterans' of Foreign Wars publication for the State of Oregon has requested such a mat to print a picture of Unsub in his next issue).
2. If the artist's conception of Unsub is changed as suggested in referenced airtel, mats of the new picture should also be made.

Re memo of SA [] to SAC, 8/4/72

On 8/7/72 the agents attached to Longview RA conducted a check of the area mentioned in referenced memorandum which also had a map attached. SA [] conducted a complete through search of the area starting at County Road 20 and progressing through the area to county road 32. It is felt a thorough walk through search was conducted of the suspect area and it was noted that the area is extremely heavy brush, fallen timber and almost impenetrable and is an area in which there are no residences or farm buildings.

On the County Road 32 side of the suspect area the terrain drops very sharply about 50 feet from the road to the creek bed. Further on the county road 20 side of the suspect area the terrain also drops very sharply to the creek.

It is felt that if a decision should be made to conduct further searching of the suspect area it would be necessary to have 10 agents for a period of two days. The property in question is privately owned with three parcels owned by three individuals.

On 8/7/72 Sheriff EUGENE COTTON who has been involved in this inquiry from its inception furnished aerial photograph copies of the terrain in question which are attached.

Re Memo of SA [redacted] to SAC, 8/1/72

Referenced memorandum contained information regarding [redacted] alleging that he is able to locate currency by means of [redacted]

b6
b7C
b7D

On 8/2/72 [redacted] telephonically advised that [redacted] had changed his original location of a currency cache to a spot approximately 2½ miles east of the original location. It should be noted that the new location is approximately on line of flight of the hijacked aircraft as set forth on original maps and in other data, and also approximately 1½ miles from Point A, of a triangulated search area, in a northerly direction.

On 8/3/72 the writer, [redacted] and [redacted] went to the intersection of County Roads 16 and 32 in Clark County where [redacted] and [redacted] exhibited time honored techniques [redacted]. This resulted in producing what they concluded to be the direction and approximate location of a large sum of currency. Three other reference points were located on County Road 20 and using the same method angles were determined setting up a triangle in which this large amount of currency is believed to be located by [redacted].

b6
b7C
b7D

One other reference point, being Point A (Supra), was located, after which both [redacted] using their technique produced an angle which when extended appeared to contact the previously established location within the triangle.

Maps explaining the above information are attached to this communication.

5 maps in 164-81-Sub A-14(306)

The writer to test the veracity of the technique used hid small sums of currency in various locations and observed both [redacted] locate the hidden currency using the [redacted].

b6
b7C
b7D

It is felt consideration should be given to exploring the possibility that a large sum of currency is located at the area outlined in red on one of the attached maps.

RE: ARTIST'S CONCEPTION

Enclosed is a copy of photo KK5-1 in the Facial Lines Section of the Facial Identification Catalogue, and a copy of the artist's composite of UNSUB.

The Bureau advised by teletype dated 12/17/71 as follows:

"It is expected the Seattle Office will continue to give this matter close supervisory attention and insure investigation is conducted promptly and thoroughly."

In view of this, the enclosed information is being submitted in memorandum form, first for supervisor evaluation and approval prior to being forwarded to the Bureau for approval.

A key witness, [REDACTED], was very adamant in her insistence that the artist's conception was not a good likeness of the hijacker. In an FD-302 dated 12/2/71, [REDACTED] stated that the conception was not, in her opinion, a good likeness of the hijacker. She requested permission to examine the Facial Identification Catalogue and immediately picked out photo #KK5-1 in the Facial Lines Section stating, "that is him, except for the ears and hair." She explained that the person depicted in that particular photo closely resembled the man; however, the ears of the hijacker did not protrude as far from the head and she felt that the hair line should be somewhat lower than that on the man depicted on photo KK5-1. She was very adamant in her insistence that the artist's conception shown to her was not a good likeness of the hijacker.

b6
b7C

A comparison of the artist's composite of UNSUB and photo KK5-1 revealed the primary difference between the two photos is UNSUB's composite appears to be a man much younger than the man depicted in photo KK5-1. The man in KK5-1 appears to be in his mid-40s while the composite shows the man in his late 20s or early 30s.

NORJAK

This case has been reviewed at the Bureau and the following observations are being made in an effort to assist your office in your investigative endeavors.

The unsub, as Dan Cooper, at 2 p.m., PST, 11/24/71, purchased a one-way coach ticket at the Portland National Airport, Portland, Oregon, for travel from Portland to Seattle, Washington, on Northwest Orient Airlines Flight number 305, which was a Boeing 727 aircraft. Unsub paid for this flight with a twenty dollar bill and had no luggage. He occupied seat number 18E on the aircraft and prior to the time the aircraft taxied on the runway, he purchased a bourbon and 7-up with a twenty dollar bill from Stewardess [redacted]. The aircraft left Portland at 2:53 p.m., PST, however, after it taxied toward the runway for takeoff, unsub turned and handed Stewardess [redacted] an envelope containing a note written in black felt-tip pen and which was on plain white unlined paper and written in neat, legible handwriting. This note informed Stewardess [redacted] that he had a bomb and instructed her to sit next to him.

b6
b7C

Unsub then dictated to her his demands at the conclusion of which he remarked, "No fuss." Stewardess [redacted] showed Stewardess [redacted] the demand notes and then went to the cockpit where she displayed them to the captain of the aircraft. The unsub retrieved these notes prior to the time the aircraft landed at Seattle, Washington. She thereafter remained in the cockpit where she prepared thirteen pages of notes concerning the hijacking and in which she described unsub as in his fifties. She later said he appeared to be of Latin descent. It will be noted that one

Letter to SACs, Seattle, Portland
Re: NORJAK

of the aircraft passengers, [redacted], believed unsub was a Mexican-American. She had a short encounter with the unsub prior to her deplaning at Seattle, at which time she said unsub did not appear to know exactly where he wanted to go after he left Seattle, but spoke of Mexico City, Phoenix, and San Francisco. Stewardess [redacted] then acted as a communications media between the unsub and the captain of the aircraft until about five minutes after the aircraft departed the Seattle-Tacoma National Airport (Sea-Tac) when she was instructed to go to the cockpit by the unsub.

b6
b7C

The aircraft landed at Sea-Tac at 5:46 p.m., PST, at which time \$200,000 in twenty dollar bills, weighing 19 pounds, two back chutes, and two chest chutes were made available to him. The passengers then were allowed to deplane as were Stewardess [redacted] and another stewardess. This is normally a thirty-six minute flight.

b6
b7C

Shortly prior to the aircraft taking off from Sea-Tac at 7:36 p.m., PST, the unsub informed Stewardess [redacted] that they were going to Mexico City or someplace in Mexico and that the aircraft could stop anywhere in Mexico to refuel, but nowhere in the United States. When unsub was informed that the fuel would not permit the aircraft going to Mexico, unsub compromised and said he would prefer a refueling landing in Reno, Nevada. The last communication had with the unsub was by interphone at 8:05 p.m., PST, and it was felt that the unsub deplaned from the aircraft at 8:12 p.m. The aircraft landed at Reno, Nevada, at 11:05 p.m., PST. An extensive ground search of the area where it was believed the unsub exited the aircraft has proved negative.

b6
b7C

When the aircraft landed at Reno, Nevada, a chest pack chute and a back-type chute were found on the plane. The missing chest back chute is a training pack "dummied up" to look like a good one. The missing back pack chute, sometimes referred to as an emergency chute, is non-steerable and anyone utilizing this type chute would have no chance of slowing down or picking his spot on which to land.

Also located in seat 18E of the aircraft at Reno, Nevada, was a black clip-on tie which contained a tie clasp described as yellow gold in color with a white pearl circular stone in the center. The label in the tie bore the

Letter to SACs, Seattle, Portland
Re: NORJAK

name "Towncraft" and bore store #3 Penneys. The label in this tie showed it to be a "Snapper" patent type tie. Investigation at Las Vegas indicated that this type sold for about a dollar and a half, that it was about a year to a year and a half old, and it was a favorite item for individuals such as waiters, busboys, and bartenders. Stewardess [] has said that this tie was probably the unsub's and other witnesses have indicated that he wore a similar type tie.

b6
b7C

Located in the ashtray utilized by the unsub were eight cigarettebutts, seven of which have been identified by the FBI Laboratory as Raleigh filter tip cigarettes, and the eighth cigarette is probably the same. These cigarettes are sold in a "soft pack."

During the period Stewardess [] was with the unsub and in her conversations with him she related what appeared to be keen observations concerning him, and which are as follows:

b6
b7C

- 1) He impressed her as being an executive because of his dress, special mannerisms, and consideration that he exhibited for her while on the aircraft.
- 2) In one of the conversations she had with him, she remarked that the parachutes were coming from McChord Air Force Base at which time he remarked that it was only about twenty minutes from McChord to the Seattle-Tacoma airport and which was apparently an accurate estimate.
- 3) While the aircraft was in a holding pattern and prior to its landing at Sea-Tac, the unsub looked out of the window and remarked, "We are over Tacoma now," although no mention of this had been made over the interphone of the aircraft.
- 4) He displayed an extensive and technical knowledge of this aircraft and seemed particularly well informed as to the refueling procedures and flying in general. He apparently was aware of where the oxygen bottles were and Stewardess [] felt this information was normally known only by the crew personnel. The only function of the aircraft that he did not appear to be fully aware of was the procedures involved in the opening of the rear door and the extending of the stairway. He likewise appeared to be completely familiar with the parachutes that had been furnished to him.

b6
b7C

Letter to SACs, Seattle, Portland
Re: NORJAK

5) She said that the unsub was a chain smoker using Raleigh filter tip cigarettes. She observed him using a book of matches, the cover of which was blue and bore the name "Sky Chef."

6) Stewardess [] asked him why he had chosen a Northwest airplane to hijack to which he replied that he had a grudge but not against Northwest Airlines, but that Northwest happened to be at the right place at the right time.

b6
b7C

7) He used the expression "No fuss" on one occasion to Stewardess [] and "No funny stuff" on one occasion to Stewardess []

b6
b7C

You should place strong emphasis on the fact that the unsub could be possibly a former employee of one of the West Coast aircraft or related industries, particularly Boeing aircraft. These industries have been hard pressed economically, causing a number of lay-offs among professional personnel as well as nonprofessional personnel and from a review of the material available at the Bureau, it is entirely conceivable that the unsub falls in this category. In view of this, the following avenues of investigation should be investigated by both the Seattle and Portland Offices:

1) Contact professional placement agencies, counselors as well as employment contractors hiring temporary professional employees.

2) Contact unemployment agencies.

3) Identify and contact professional societies or organizations associated with the aircraft industry, being alert for anyone that possibly terminated membership or activity after 11/24/71.

4) The age bracket of the unknown subject could probably make him a Veteran of World War II, or the Korean conflict and in this regard, you should contact Veteran groups and the American Legion.

5) Seattle should submit to the FBI Laboratory the black clip-on tie and clasp found on the aircraft at Reno, Nevada, and request the FBI Laboratory to examine this material for soil and dust particles in an effort to possibly pinpoint the area of the country from which the unsub came from.

NORJAK

Reurairtel June 1, 1972.

For your information the Air Transport Association, Washington, D. C., which is acting as the administrator of a reward program designed to pay for information leading to the arrest and conviction of persons involved in aircraft piracy etc., was contacted concerning the offering of a reward relative to captioned case. They have advised that they have considered providing such a reward concerning this case and that formal notification will be forthcoming. You will be advised upon receipt of this information.

With regard to the additional suggestion you made relative to the fact that nationwide circularization be made of all banks, savings and loan associations, and commercial companies who have available safe deposit boxes on the theory that subject may have escaped safety and secreted money in such a box is not being approved. Wide circularization has already been provided banking type institutions relative to the ransom list in this case.

Re: Bureau airtel to Seattle, 5/17/72.

Pursuant to instructions contained in referenced airtel, an extensive file review of captioned case was conducted by the writers from May 22 - 26, 1972. Among files reviewed were main volumes, numbers 1-47, subfiles designated for a particular area of interest, i.e. parachutes, witnesses, course; I-A volumes and numerous suspect subfiles. In addition, physical evidence as available was reviewed for pertinent investigative leads.

Information set forth following the file review has been arranged according to the headings used in the table of contents found in the report of SA CHARLES E. FARRELL, dated February 16, 1972, with the exception of a brief hijacker profile.

PHYSICAL EVIDENCE

Black Snap-On Tie and Tie Tack

An examination of the tie by the writers revealed noticeable amounts of dust lodged in the inner knot area. In addition to the markings "3 Penneys", two other labels were found as follows: "Snapper Pat. 2972750. It's a snap to snap on"; and "100% Dacron Polyester Washable RN 16484". From writers' experience in Theft From Interstate Shipment cases involving Penneys merchandise, it is known that the RN number is a manufacturer's code. Penneys headquarters will be able to determine where the tie was manufactured, when imported and which stores sold this tie.

(4)
WRM/JLD/slb

DB Cooper-32171

SE 164-81

It is recommended that the Lab be requested to examine this tie, particularly, the dust particles lodged in the inner knot area, to determine if it is possible to determine what area of the country this tie has been in.

It is recommended that a lead be set out for New York to contact [redacted], Foreign Buying Department, J. C. Penney Co., 1301 Avenue of The Americas, regarding distribution of neck tie number RN 16484, ie. which Penney stores sold this model. In the event [redacted] does not have needed information, it is suggested the specific buyer of neck ties for Penneys in [redacted] department be contacted.

b6
b7c

Magazine and
Notebook Paper

[redacted] Northwest Airlines, in a search conducted November 25, 1972, of victim airplane, found parts of a magazine and a piece of notebook paper with printing thereon made by a felt marking pen. The Bureau has examined these papers and has found 24 latent fingerprints and 5 latent palm prints of value. It is recommended that since both witnesses [redacted] and [redacted] and the [redacted] and [redacted] observed the unsub write with a felt pen, the notebook paper and magazine parts printing be shown to these witnesses. This should be done to determine if the printing is similar to unsub's and if the felt pen color and characteristics are similar to unsub's.

b6
b7c

ARTIST'S SKETCH

A review of the testimony of the principal witnesses, including the 3 stewardesses, the 2 Northwest Airline employees (NWA) at Portland, Oregon, and the 5 passengers reflects a general disagreement concerning the accuracy of the artist's sketch. Numerous changes were suggested by these witnesses and some were implemented in making up the final artist's sketch. It is noted that a Bureau artist personally interviewed the three stewardesses at Minneapolis, Minnesota and thereafter prepared a revised sketch of the hijacker showing him with the dark glasses, which he wore on the airplane, and another sketch, but without the glasses. One key witness, [redacted], stewardess, was very adamant in her insistence that the artist's conception was not a very good likeness of the hijacker.

b6
b7c

It is recommended that a Bureau artist be flown to pertinent divisions, including Minneapolis, Seattle and Portland, and spend sufficient time with the key witnesses until an artist's sketch which is agreeable to the majority of the witnesses can be obtained.

It is recommended that the Color Selection Guide be used to provide details and depth not ordinarily shown in black and white sketches.

It is recommended that the Bureau artist sketch hijacker showing the full face, full face with dark glasses, side profile, and a sketch showing the hijacker in a standing position.. All the sketches should be in color.

In addition to the facial identification guide, color selection guide, the following items should accompany the Bureau artist and assist him in preparing the sketch:

1. The FBI Lab should provide a color profile from the single hair sample submitted previously by the Las Vegas Division, following its discovery on a head towel presumably used by the unsub.

2. The following photographs of "strong suspects" which witnesses have commented about as having the correct eyes, ears, etc., should be included:

b6
b7C

Prior to sending the Bureau artist to the various divisions, it is recommended that a letter of appreciation from the Bureau be sent to all pertinent witnesses, expressing Bureau appreciation for their time and effort and indicating desires regarding artist's sketch.

Following the obtaining of an acceptable color artist's sketch, widespread use of these should be made in the following ways:

1. Consideration should be given for another general mailing of new sketches to all law enforcement agencies, banks, etc, that received the old sketches in previous mailings.

2. Television and newspaper sources should be recontacted and brought up to date with the new sketches. These sketches, additional news releases, copies of ransom lists as prepared by the Crime Records Division, should be provided to all television and newspaper sources. Space for a color insert in at least one of the major newspapers having daily circulation in Seattle, Portland, Las Vegas, San Francisco and Los Angeles should be purchased. This insert should contain material prepared by the Crime Records Division and include all four new artist's sketches, pertinent background information and other interesting newsworthy developments, in order to promote widespread public interest resulting in new suspects and possible recovery of some of the ransom money. It is noted that expenses for a newspaper format for ransom lists and accompanying background information were estimated at actual costs of \$1,600 for the Seattle Times, Seattle, Washington. Color would, undoubtedly, cost more. Bureau Exhibits Section may be able to cut costs considerably by preparing all material uniformly prior to submission to major newspapers.

As a source of continuing value, it is recommended that display or window space be rented for a period of not less than six months at major airports in Seattle, Portland, Los Angeles, San Francisco and Las Vegas, and that the Exhibits Section prepare hijacking displays, including artist's sketches, photograph models, ransom lists, notices of rewards, etc. It is hoped that this would promote a sense of awareness and develop additional suspects. In view of the fact that this display may be done in such a way as to promote airline security and prevent, or discourage future hijackings, major airlines may wish to share a portion of the expenses. It is noted that traffic at the above major airports would have a heightened awareness of hijackings and would be cognizant of the hijacking problem.

EXPERIMENT WITH AIR STAIRS

[redacted] has suggested that the hijacker could be someone that worked on the Boeing Engineering Project having to do with the air stairs. [redacted] advised this project took place in 1963 and 12-15 engineers worked on it. He only recalls the following:

b6
b7C

[redacted]
It is suggested that [redacted]
[redacted] who worked on the Boeing 727 air stairs' project in 1963, be contacted concerning other Boeing employees that worked on that project. These employees should be identified and should be eliminated as possible suspects.

b6
b7C

DESCRIPTIVE DATA

MATCHBOOK COVER

Regarding the blue matchbook cover marked "Sky Chef" observed by Stewardess [redacted] as used by the hijacker, it should be noted that Sky Chef is a chain of restaurants serving airports. It is recommended that Portland determine if there is a Sky Chef Restaurant at the Portland Airport (noting that the Sky Chef Restaurants usually have different names) and Portland should determine if this restaurant gives away blue colored matchbooks with Sky Chef written on them. Unsub may have eaten lunch at the Portland Airport Restaurant prior to boarding Northwest Airlines flight 305 and if so, latent fingerprints may be on a meal ticket (bill) for that day. Portland should determine if these tickets are available for November 24, 1971, and determine feasibility of obtaining latents.

b6
b7C

OLIVE OR LATIN COMPLEXION

Key witnesses generally agree that unsub had an "olive or Latin" complexion. One witness indicated a Mexican-American or possibly Indian complexion and characteristics. In addition, unsub expressed a desire to go "anywhere in Mexico".

It is recommended that all divisions having a concentration of Mexican-American extremists, including Chicanos, Brown Berets, review extremists albums. It is further suggested that revised colored sketches, when obtained, be shown to all pertinent Mexican-American sources.

INTERVIEWS WITH KEY WITNESSES

In view of her willingness to cooperate and ability to recall explicit details, it is recommended that [redacted] be reinterviewed. [redacted] could be reinterviewed in connection with the Bureau artist's interview, at which time the following questions should be asked:

b6
b7C

1. How did the hijacker secure the money? Did he appear to be going to jump while holding the money package by a handle or did he fix a knapsack arrangement:

2. What was the position of the hijacker when [] last saw him as she left the rear of the airplane for the last time? What did the hijacker have around his waist? Was the hijacker attempting to secure himself to the plane by using parachute cords in an attempt to prevent being pulled out of the airplane when opening the rear door? Did the hijacker express a fear to the stewardess that he would be pulled out of the door prematurely?

Experienced parachutists have advised that attempts to hold the money without adequately securing it would probably not be sufficient. Attempts by unsub to secure himself to the plane prior to opening the rear door of the aircraft would indicate a fear of being sucked out of the aircraft as the stewardess feared. This would indicate a lack of knowledge about the Boeing 727 and aircraft in general.

3. What was the level of education of the hijacker as measured in terms of speech, grammar, and mannerisms?

AIRPORT, FLY GROUPS, FLIGHT SCHOOLS
PARACHUTE CLUBS

In a teletype from San Francisco dated November 26, 1971, San Francisco advised there was no record in files of U.S. Parachute Association, 651 Cannery Row, Monterey, California for names of D. B. COOPER, [] and []. It is recommended that San Francisco at Monterey review records of the U.S. Parachute Association for names similar, i.e. DAN COOPER and combinations such as DANIEL COOPER, DAN (middle initial whatever) COOPER, COOPER DANIELS, etc.

EXPLOSIVE DEVICE

SIX OR EIGHT REDDISH
STICKS OF "DYNAMITE"
6" to 8" LONG

It is recommended that sources in Washington and Oregon be contacted concerning the sale or theft of that amount and description of dynamite in a time period of up to two weeks prior to November 24, 1971. Sources to be contacted would be such as construction firms, public utilities using dynamite, hardware stores and police departments and sheriff's offices concerning reports of theft of dynamite.

HIJACKER PROFILE

Hijacker's clothes may have been unfashionable, since he was wearing a black thin (out of style) snap-on tie and tie clasp. Hijacker's briefcase was described as "cheap" style.

Hijacker's language usage indicates at least a moderate level of education (high school or higher).

Hijacker drinks bourbon and 7-Up, and smokes Raleigh cigarettes.

Hijacker did not appear to be an experienced professional criminal (reportedly his behavior became childish following receipt of money.) The hijacker was familiar with the Seattle area because of several comments he made, such as "we are over Tacoma now" and "McChord Air Force Base is only 20 minutes from SeaTac Airport."

Hijacker did not provide instructions to control air speed, nor to control the direction by degree of aircraft and, therefore, would not have been able to control his drop zone. This would eliminate theories involving a pickup by an accomplice.

Hijacker began immediately attempting to prepare for jump shortly after lift off at SeaTac Airport. Because the money was not in a knapsack and ready for jumping and because of problems encountered in opening rear door, hijacker may have been delayed in making jump. It is possible that the hijacker wished to jump much nearer Seattle or Tacoma.

SE 164-81

Hijacker was probably not a sporting parachutist as he relied completely on airline personnel to furnish any type of parachute equipment available. As a result, he was furnished a chute that would open quickly with a good possibility of tearing, a high rate of descent and non-steerable. One chute he jumped with was a dummy chute and would not open. A parachutist with considerable experience would have been more specific in the type chutes requested.

Above suggestions have been set forth in hopes that investigative efforts of this important major case might be implemented and case brought to an early logical conclusion.

AIRTEL

AIRMAIL

TO : ACTING DIRECTOR, FBI (164-2111)
FROM : SAC, SEATTLE (164-81) (-P-)
SUBJECT: NORJAK

Re Bureau airtel 5/17/72.

Pursuant to instructions contained in referenced airtel, an extensive file review of captioned case was conducted. Among the files reviewed were the main volumes, numbered 1 through 47, sub-files designated for particular areas of interest, i.e., Parachutes, Witnesses, Course, 1-A volumes and numerous suspect files. In addition, an examination was made of all physical evidence being maintained at Seattle, for pertinent investigative leads.

As a result of this review, the following suggestions are being proposed:

DJNR
REWARD: This case has generated world-wide attention and many suspects have been suggested and are continuing to be received. However, since nothing of value has yet been developed, it is felt that the prospect of a substantial reward for information leading to the identification and conviction of this hijacker, might entice someone to come forward and name the hijacker.

To be realistic, the reward would have to be attractive to the person furnishing the information and therefore, a sum of not less than \$25,000 is recommended.

The reward money could be provided either by the Department of Justice, or by the airlines, or by both. The only reward at the moment is \$5,000, offered by the Seattle, Washington newspaper SEATTLE POST INTELLIGENCER "Secret Witness Program."

2 - Bureau (164-2111)
2 - Seattle (164-81)
EEF:klb
(4)

DB Cooper-32181

Sub. X
164-81-3378

SE 164-81

SAFE DEPOSIT BOXES: Since nothing was found in the search conducted by the Army in March and April, 1972 of the probable drop area in southwestern Washington, it now appears quite possible that the hijacker escaped safely and might have secreted the money in a safe deposit box.

It is recommended that nation-wide circularization be made of all banks, savings and loan associations and commercial companies offering this type security. Each such location would be furnished with a description of the subject and the artist's conception showing the hijacker with and without the glasses.

Doc
THE BOEING COMPANY: In 1963-1964, The Boeing Company had a team of 20 to 30 engineers and test pilots experimenting with the air stairs of The Boeing 727 to determine the plane's adaptability for dropping cargo or personnel. In the tests conducted the air stairs were removed and packages were dropped from the plane using an especially designed chute. [REDACTED]
[REDACTED]
[REDACTED]

b7E

The Boeing Company has furnished the names of their employees who were involved in that experiment and investigation is being conducted to determine if one of these could be the hijacker. They are also being interviewed for any info they may have as to the identity of the hijacker.

Seattle is continuing to screen suspects in this matter, which are received from various sources and will give expedite attention to any worthwhile information obtained.

Re Bureau teletype to WFO, dated 12/30/71.

Enclosed for the Bureau is one and for Seattle two copies of the January, 1972, issue of the "Pilot Bulletin," the monthly publication of the Air Line Pilots Association (ALPA).

Re Air Line Pilots Association:

On 1/7/72, [redacted] ALPA, 1329 E Street, N.W., Washington, D.C. (WDC), advised that the "Pilot Bulletin" has a circulation of 31,000 and that the bulletin is currently being mailed to ALPA members.

It is noted that page 7 of the bulletin contains composite photographs and descriptive data concerning unsub involved in captioned matter along with a brief editorial which was written by [redacted]

UNITED STATES GOVERNMENT

Memorandum

TO : SAC, SEATTLE (164-81)

FROM : SAC CHARLES E. FARRELL

SUBJECT: NORJAK

DATE: 1/20/72

In connection with the Bureau's desires that additional publicity be obtained which might help in solving NORJAK, the Bureau, by airtel dated 1/6/72, advised as follows:

"The Seattle Office should consider soliciting cooperative radio, television, and newspaper outlets in pertinent areas to encourage listeners to examine \$20 bills and check them against the ransom lists at police departments and FBI Offices. Copies of the ransom list could be furnished cooperative radio, television, and newspaper sources."

Each SRA should contact Friendly or established sources mentioned in referenced Bureau airtel for the purpose of publicizing the above information.

Each SRA should then advise how many copies of the list of ransom bills would be needed to further this publicizing of the ransom money.

RE: AIRPORTS, FLYING CLUBS, FLIGHT SCHOOLS,
PARACHUTE AND SKYDIVING CLUBS

Enclosed is a summary insert re captioned matter.

Bureau authority has been requested to publish an artist's conception and composite description of subject in "Pilot Bulletin", monthly publication of the Airline Pilots Association.

Although available, it is not believed feasible at this point to obtain a complete list of all members of the U. S. Parachute Association, variously estimated between 10,000 to 40,000 members depending on activity.

ARMED AND DANGEROUS.

Review of the file reflects Portland Division has conducted appropriate inquiry concerning captioned matter at Portland International Airport and at airports at Aurora and Donald, Oregon, in Marion County.

On the possibility that subject might have rented a plane and flown over the area of Southwest Washington or might have chartered a plane for the same purpose, the following investigation should be instituted throughout the remaining portion of the State of Oregon:

(1) Identify and contact each flying school for anyone fitting subject's description as having rented a plane during the pertinent period.

(2) Identify and contact all air fields which might have rented such an aircraft to anyone meeting subject's description.

(3) Identify and contact each skydiving school or club and determine if anyone meeting subject's description is known to them.

Re Seattle nitel to Atlanta, dated 12/20/71.

Search presently being conducted ^{records} Delta Airlines, Atlanta, Georgia, to develop possible suspects among any recently discharged pilots, flight engineers or unsuccessful applicants.

[redacted] suggests that pilots union known as Airlines Pilots Association (ALPA) located at Washington, D. C., might be a logical source for information of this type in that they vigorously pursue grievances resulting from discharges, layoffs, etc., of pilots and flight engineers. ALPA represents approximately 95 percent of all commercial airline pilots.

Results of check requested in referenced nitel will be furnished immediately upon receipt.

SAC, SEATTLE (164-81)

12/22/71

SA ROBERT H. WICK

NORJAK

On December 22, 1971, [REDACTED], Aberdeen, Washington, advised that she had heard that the FBI was extending its investigation into the Aberdeen area in captioned matter. She was advised that the Bureau was answering inquiries in many localities.

b6
b7c

She reported that the evening of the hijacking, she had the television on and was listening to reports of the hijack while the plane was enroute Seattle from Portland. While listening to this report, a helicopter flying easterly went over her house at an unusually low altitude. She was unable to further identify the aircraft, but thought it may have something to do with the hijacking.

Although this, in itself is of little investigative value, the question arose that the unsub may have had an accomplice and was removed from the ground after landing by aircraft. Has the FAA and/or the suitable monitoring agency been contacted for identification of all aircraft in the pertinent area where the hijacker could have landed. It has been the writer's experience to be a passenger in a small plane south of the Columbia River near Mount ~~Rainier~~ Hood and hear radio FAA Auburn report they had our plane on radar and told us exactly where we were as well as what to expect in other aircraft passing through the area.

UNITED STATES GOVERNMENT

Memorandum

TO : FILE (164-81)

FROM : SAC, SEATTLE

SUBJECT: NORJAK

DATE: 12/21/71

SUB - X
E
F
W

On 12/20/71 I talked to SAC HELD in Minneapolis. I told him that we had made extensive efforts to search the area where the hijacker is believed to have jumped, without discovering any evidence of his whereabouts or identity.

The Northwest Airlines people here have advised that they would be glad to simulate his flight, having a man jump to see whether the crew experienced the same reaction as recorded on the initial flight, and if the flight recorder records the same movement of the plane. If it did not, then it would appear that there was little use searching in the area we were searching in. If it did have the same reaction, then we would have to search an area approximately 2½ miles by 6 miles of virgin timber.

I told SAC HELD I thought it would be well if possible to have the same airplane used with the same crew but I did not see any reason for them to actually jump in the same area since it would be too dangerous and we may lose the jumper, but I did think it would be a good idea to simulate it in an area where the jumper could be recovered.

He advised he had talked to Mr. NYROP about this and that he had instructed that the crew and plane be put together for this purpose as soon as possible.

I inquired of him the status of their proposed offer of a reward and he advised Mr. NYROP had told him that the Seattle P-I Secret Witness Program had announced a \$5,000 reward, which was true, and that he would give consideration to making another \$5,000 offer for information furnished to Northwest Airlines or the FBI, furnishing the identity of the hijacker and evidence to assist in his conviction.

NORJAK.

SEATTLE HAS CONDUCTED AN EXTENSIVE SEARCH OF WHAT WAS CONSIDERED THE PRIME AREA INTO WHICH THE SUBJECT MIGHT HAVE PARACHUTED, ALL WITH NEGATIVE RESULTS. THIS AREA WAS CONSIDERED PRIME DUE TO CALCULATIONS BY NORTHWEST AIRLINES OF THEIR FLIGHT RECORDER AND OTHER INSTRUMENTS ABOARD THE PLANE PLUS THE EXPERIENCING OF AN QUOTE OSCILLATION UNQUOTE BY PILOT.

NORTHWEST AIRLINES HAS OFFERED TO SIMULATE THE SAME CONDITIONS OF THE AIRCRAFT AS PREVAILED DURING THE HIJACK AND WILL FLY OVER THE SAME COURSE FROM SEATTLE TO RENO. THEY ARE ANXIOUS TO DETERMINE IF THE CONCLUSIONS THEY HAVE REACHED ARE, IN FACT, CORRECT AND THE ONLY WAY THEY CAN DETERMINE THIS IS TO HAVE A RERUN OF THE ACTUAL CONDITIONS.

SEATTLE WILL ARRANGE, THROUGH THE MINNEAPOLIS OFFICE, FOR NORTHWEST TO DO THIS AT SUCH TIME AS NORTHWEST CAN DO SO.

BASED ON THE FINDINGS OF THE ABOVE DESCRIBED FLIGHT, SEATTLE WILL MAKE A JUDGMENT AS TO WHETHER OR NOT ADDITIONAL SEARCHING SHOULD BE CONDUCTED OVER THE PRIME SEARCH AREA OR IF

For record purposes, I called SAC WHALEY at Albuquerque on 11/29/71, and told him I understood that there was a research project at Hobbsman Air Force Base in New Mexico dealing with the effect on a body of high altitude parachuting and the effect of low temperatures on a body in case a jump was made. I asked him to see if he could contact the person responsible for the survey to give us some notions about what effect this would have on the man making this jump.

I told him that the weather was clear to 1500 feet, broken clouds to 5,000, solid above, and that the jump was possibly made around 7,000 to 10,000 ft. at a time when the "total average temperature" was minus 7 degrees.

SA THOMAS J. MANNING

164-81-1854

NORJAK

Based upon maps received this date at Longview RA pin pointing a search area where the hijacker could have landed and anticipating a walking search to be conducted in the near future in extremely wooded and somewhat hazardous terrain the following suggestions are being made.

Once the search date is fixed this matter be made a Special with the four California offices, Portland and Seattle to furnish four or five agents to participate in the search on a volunteer basis. The voluntary aspect is being emphasized in view of the terrain to be searched and the uncomfortable conditions which will undoubtedly be experienced by the searching personnel.

It is recommended that volunteers be sought from individuals who have some, and preferably extensive, experience in the use of a compass and hiking and camping experience and who are physically qualified to spend a period of time in a densely wooded area on what is essentially a problem similar to a military field exercise.

It is further recommended that the agent personnel assigned be cognizant of the fact that once the operation starts they will be required to remain overnight in their assigned searching areas rather than retracing areas covered to go to and from a base camp.

A list of recommended items to be secured for logistic support of this special is being prepared by the writer the majority of which can be secured from the Army or the Navy at little or no cost to the Bureau.

Aerial photographs of the search area as set forth by the map of plus terrain maps are presently being secured in order that the search area may be properly divided for maximum coverage by searching agents.

b6
b7c

It is also recommended that this search be a completely Bureau operation involving no outside agencies so as to limit the amount of publicity which is generated.

It is felt that the prime and secondary search areas, while in rough terrain, can be adequately searched by a small, select group of dedicated personnel who are doing it voluntarily and the search will either find the hijacker or lead to the conclusion that the area pinpointed by all available technical data has been completely combed for traces of the subject.

(2) TJM/

DB Cooper 32230

UNITED STATES GOVERNMENT

Memorandum

TO : SAC, SEATTLE (164-81) (P)

DATE: 1/11/72

FROM : SA THOMAS J. MANNING

SUBJECT: NORJAK

On 1/11/72 SA WICK, Olympia RA, was furnished with a copy of the map supplied by [redacted] and contact was made with the Department of Natural Resources, Olympia. It was determined that the entire area outlined by [redacted] was the subject of an aerial survey in 1968. Approximately 30 photographs give complete coverage of the area in question and are sold at \$1.25 per photo. Further SA WICK is securing, in addition to the photos, detailed maps made from the photos which can be used in conjunction with the photos for complete familiarization with the search area as it existed in 1968. It was pointed out by the Bureau of Natural Resources that there should be no major radical changes in the area since the last fly over. SA WICK was advised to purchase the photographs and it is felt the expenditure of the money for the photos and maps will not exceed \$50 and in view of the magnitude and importance of the search is a legitimate expenditure of Bureau funds.

b6
b7C

The above mentioned maps are being sent to the Longview RA this date.

In the event it is deemed advisable to make a fly over the prime search area set out by [redacted] for a general view of the terrain prior to a ground search [redacted] at Longview, Washington, [redacted] and extremely familiar with the area of the search, is available on an hourly or daily rental basis. It is felt that such a fly over would be advantageous for general layout information on the area and the cost of such service would not exceed \$50 per hour which sum could probably be negotiated to a lower amount on a daily basis.

b6
b7C

Facilities are available at the Longview Post Office for mounting the photographs and maps in proper sequence to enable personnel to be properly briefed on general terrain features and prime search area and the civil service examining room can be made available for such briefing.

It is to be noted that in the event interpretation of the above mentioned photographs in stereo is necessary personnel at the Battleground District office of the Department of Natural Resources are available with sufficient photo copies to perform this task.

Suggested items for search

Compass for each man involved in the search - can probably be secured on loan basis at Ft. Lewis.

Rain gear consisting of hooded jacket and rain pants for each man - can probably be secured from Ft. Lewis on loan for each man on search. If not available there can be secured from US Navy at Bremerton.

Rations - K and C rations with heat elements p can be secured at cost or possibly free of charge from Ft. Lewis.

Field packs - it is felt each man involved in search should have at least one half of the regular field pack to carry rations, and other essential items. Can probably be borrowed from Ft. Lewis.

Each man on search should have a handi talki radio in order to insure proper communications and to assist in event individual becomes lost in wooded area.

Squad whistle for each man in search party in order to facilitate in locating others in party and in event searchers become lost or isolated. Can be secured from Ft. Lewis, or purchased commercially.

Base radio capable of reaching all handi talki units to be set up in trailer base camp.

Each searcher to carry two cans of pressurized paint to slightly mark their paths on trees to insure full coverage of designated search area. Can be purchased commercially or through a paint surplus house in Seattle.

Each searcher to carry supply of evidence tape in event package of money found - procedure will be to leave in original position until another agent can arrive at scene to witness finding and bundling as evidence. Area in which evidence found is to be properly marked for later survey to pin point location of find.

One 50 foot length of rope for each two agents involved in the search. Can probably be secured from Ft. Lewis.

5 grappling hooks to be used with rope (or possibly with rope attached) to be used for scaling cliff areas.

1 flare gun and box of red, green and white flares - probably can be secured at Ft. Lewis.

5 Mile ray lamps with replacement batteries

Each agent to have a flashlight with supply of extra batteries. *Sub. Y*

Each searching agent to have minor medical supplies such as band aids etc. *164-81-1051*

SA CHARLES E. FARRELL

NORJAK

Re: SEARCH

U.S. AIR FORCE SR-71 AIRCRAFT

The Sacramento Division in a teletype dated 12/3/71 (Ser. 550) advised that Beale AFB, California, had offered, free of charge to the Bureau, use of an SR-71 aircraft to photograph terrain over which the hijacked airplane had flown on its trip to Reno.

This aircraft was described as an extremely sophisticated aerial reconnaissance plane which would photograph a strip 20 miles wide with photographic resolution of detecting objects on the ground 2 feet square. The film strip would then be reviewed by trained and qualified U.S. Air Force personnel.

Due to weather conditions along the route, being inclement at times, the flight never was made.

On 1/10/72 the writer contacted SAC JOHN WILLIAMS, Sacramento, and explained the results of the experiment on 1/6/72. Mr. WILLIAMS was requested to have the Air Force contacted to see if the flight could be made only over the State of Washington and perhaps from the Columbia River to a point some 30 miles north. He was also asked if the Air Force could advise what we could expect of such an over flight in the way of information which would be helpful in the search of this terrain.

In response to the above call, SA [redacted] who has been handling the hijacking case at Sacramento, advised he had contacted Beale AFB and made the request for the over flight and that he would attempt to determine if it could be made, noting that weather conditions still are effective.

Copies of the revised map of the area to be searched were forwarded the night of 1/10/72 to Sacramento. 164-81-1853

Enclosed for Seattle are Xerox copies of missing person index cards which generally fit the description of captioned unsub.

In connection with captioned investigation it was suggested by the Criminal Investigative Division that a manual search of the missing persons indices be conducted here at FBIHQ Identification Division. Approximately 5200 cards containing information regarding missing persons were reviewed in an effort to identify logical suspects who were reported as missing at about the time the hijacking occurred. Identification Division personnel were furnished with a composite description of Dan Cooper and as a result the below listed white males were developed as suspects. Each of the individuals were reported as missing during latter 1971 or 1972.

This search was based upon the presumption that unsub may have perished during the jump from the aircraft and that some relative somewhere may have filed a missing person report.

RE: SUB Z BU INSTRUCTIONS
SUB GG REPORTS

On 3/29/77, [REDACTED] at FBI HQ, advised that he has had the Bureau of Missing Persons file reviewed for the months of November and December of 1971 and all of 1972. There were approximately 5,166 persons in this file and from that number he was able to determine that approximately 20 were of the approximate general description of UNSUB in this matter.

b6
b7C

[REDACTED] stated he would have the fingerprint cards for these 20 suspects pulled and have their fingerprints compared to the NORJAK latents on file in this matter.

b6
b7C

[REDACTED] stated at the end of this search he would advise the Seattle Division of the results. [REDACTED] advised that it was his intention to take any potential suspects still remaining and thoroughly process him as a suspect in this matter.

b6
b7C

Finally [REDACTED] explained that he could eliminate half of the missing persons because they were female and a great portion of the remaining because of age differences between them and UNSUB in this matter. In addition to age differences, there were others eliminated because of race.

b6 per FAA/FBI

b7C

On 12/14/76, Mr. [] Chief of Investigations, Air Transportation Security Division, Regional Office, FAA, Seattle, Washington, telephonically advised that earlier that day he received a telephone call from [] representing Allen Landsburg Productions, Inc., Los Angeles, California, their telephone number 213-273-7400, requesting cooperation of the FAA in doing a production on D. B. COOPER.

[] explained they are going to do a feature of some type, entitled "Still At Large" which would include the saga of the D. B. COOPER hijacking of 11/24/71.

b6 per FAA/FBI

b7C

[] explained that they would like to interview the FAA Air Traffic Controllers and do some "shooting" in the FAA facilities at Seattle-Tacoma International Airport in connection with that story.

Mr. [] advised that he referred [] their Public Affairs Office at the FAA Regional Office, Seattle, and in addition, Mr. [] also referred the matter to Mr. [] Director of Civil Aviation Security Services, FAA, Washington, D. C.

b6 per FAA/FBI

b7C

Mr. [] advised that it is a standard procedure of FAA that if any request is made to them along this line, that, where it is a commercial matter and obviously for profit, that they require that before any interviews are conducted that the FAA be furnished with a complete list of all questions and topics which would be asked.

b6 per FAA/FBI

b7C

Mr. [] later advised that FAA has taken the stand that, since this matter is a pending investigation with the FBI and particularly in view of the recently handed down indictment at Portland in the D. B. COOPER case, they will not honor his request.
